How to use this timeline

Start with your ceremony time and work backward for getting ready, then forward for the reception.
Add 15 minutes of cushion before every big moment, and plan photos for 30–45 minutes before sunset.

Tips from Mak

Build in 15 minutes of cushion before every big moment. Something always runs late.

Plan photos 30–45 minutes before sunset for the best light.

Give one person every vendor question on the day, so you never have to answer one.

Send this timeline to vendors 7 days out and ask each one to confirm arrival.
